To whom it may concern,

I am interested in applying for a position as a small business owner.

I am currently attending Ripon High School as a Sophomore. At my high school, I am a spirit commissioner in my Student Government program and I'm also involved in sideline cheer. I plan to find as many ways as possible to get more involved in my school and community. The hard work and dedication I have that I put into my studies and outside school activities has led me to a path of interest to be a small business owner. I find interest in the flexibility, independence, and opportunities that come with this career.

I am an excellent communicator, very organized, and confident in my leadership abilities. I enjoy learning new skills and will keep learning as much as I can to be my best in this role. Thank you.

Sincerely,

Payton Miller-Kay
