Dear Maribel Ramirez,

I am interested in applying for a position as a clinical psychologist.

I am currently attending Ripon High School as a freshman. At my high school, I am a freshman representative in my Student Government program and I'm also involved in sideline cheer. I plan to find as many ways as possible to get more involved in my school. All of my hard work and dedication that I put into my studies and the activities that I participate in has led me to a path of interest to be a clinical psychologist.

I am an excellent listener, communicator, and I like to help people through rough times to reach a better place. I enjoy learning new skills and will keep learning as much as I can to be my best in this role. Thank you.

Sincerely,

Payton Miller-Kay
